

## Where Do I Shut Off My Water & Natural Gas? "I.D. for Free" Is the Answer.

*Every year homeowners suffer thousands of dollars of property damage that could have been prevented.*

We created the **I.D. for Free** tagging program to help you limit or prevent property damage by knowing what to do before and during a water or natural gas emergency.

**I.D. for Free** is easy and simple. Our technicians will label all the accessible water and natural gas shutoff valves in your home, requested by you, with easy-to-see, water and tear resistant identity tags. And we'll do it **for free!**

Plus, we'll show you how to turn off the valves, and teach you what to do when gas odor is present or there is a water emergency.

**I.D. for Free** is our way of helping you limit personal and property damage as quickly as possible. **We highly recommend that you share the information with everyone living in the home.**

### Who Qualifies?

**I.D. for Free** is intended for **Home Owners of Single Family Residences** and **Owners of Single Family Rental Housing**. To qualify for this **No-Charge service** the following criteria s be met:

- You must be the owner of the home.
- The home must be your primary residence or residential rental property owned by you.
- Work must be ordered by you, not your renter.
- You need to meet us at the site and be available during our visit.

The scheduling will be either the 1<sup>st</sup> call of the day, or a 2 hour 'window' where **we will call when we are on the way** so that we can **be sure** for both of us that we meet in a timely manner & **don't have to wait for each other.**

### What Will We Label?

**I.D. for Free** labels are waterproof, and tear resistant. If any valve on your system needs to be labeled, we will identify it with one of our tags. This could include the following:

- Main house water shut-off
- The Gas Shut-off on any gas appliance (Water Heater, Range, BBQ, Furnace, Boilers, etc...)
- Water heater Cold Water shut-off.
- Water Heater Circuit Breaker on Electric Tanks.
- Emergency shut offs and Isolation valves, which are sometimes in unique locations.

**The following will not qualify for the No-Charge Service:** *Commercial and large, Multi-family Rental Properties. i.e. apartment buildings ...normally these are managed by Property Management Companies.*
